You will find them everywhere in everything

If you search for *divisibility*,
you will find it
everywhere in everything!

If you search for *comparability*,
you will find it
everywhere in everything!

If you search for *connectivity*,
you will find it
everywhere in everything!

If you search for *sensitivity*,
you will find it
everywhere in everything!

If you search for *transformability*,
you will find it
everywhere in everything!

If you search for *substitutability*,
you will find it
everywhere in everything!

If you search for *satisfiability*,
you will find it
everywhere in everything!

Doesn't science search and study *divisibility?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *comparability?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *connectivity?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *sensitivity?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *transformability?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *substitutability?*
Yes, science searches for it
everywhere in everything!

Doesn't science search and study *satisfiability?*
Yes, science searches for it
everywhere in everything!

What will you do
if nothing has divisibility,
comparability, connectivity, sensitivity,
transformability, substitutability, and statisfiability?

What would your knowledge be
if nothing has divisibility,
comparability, connectivity, sensitivity,
transformability, substitutability, and statisfiability?

- Sivashanmugam. P., Department of Biotechnology, Jamal Mohamed College
